Melody Match
(Two or more players)

Each player has five cards. The remaining cards are placed face down in a draw pile. The player whose turn it is may place any cards with a **song title** face up for everyone to see and any cards of bars of music that belong to that title so long as they are placed in the correct order; first two bars and then second two bars. Cards to replace those are taken from the draw pile. The next player may add to the sets with the appropriate bars of music in the correct order or place more cards with song titles. If a player cannot place a card then that player misses a turn. When a set is formed the player who completes the set gathers it up and keeps it. The person with the most sets wins.

Melody Match Cards
© Music Fun 2011
Shuffle the cards and spread them face down. The first player turns over three cards. The aim is to form a set of three cards; the beginning two bars, the next two bars and the name of the song. If there is a match between any three cards, then that player keeps the cards and turns over the same number of cards again. If a match is not made they are turned face down in their original positions and the next player has a turn. The player with the most cards wins.
